7. Federal tax withholding election

Please consult IRS Form W-4R available from www.irs.gov/pub/irs-pdf/fw4r.pdf. You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. Review the "Suggestion for determining withholding" section of the instructions to help determine the rate of withholding appropriate to your tax situation.

Federal withholding will automatically be deducted from distributions at the rate of 10% for IRAs unless you check one of the boxes below. Certain Roth IRA distributions may not be subject to withholding.

You may elect a withholding rate from 0 to 100%. If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. Please be advised that withholding will be taken from the proceeds of your distribution. Should you wish to receive a specific net amount, you may want to consider increasing the amount of your distribution in the Distribution Instructions section. For systematic distributions, your withholding election will remain in effect until you revoke or change it, which you may do at any time.

Some states require withholding regardless of your federal withholding election. Furthermore, state withholding is not available for certain states.

Specifying a rate other than the default affirms that you have consulted IRS Form W-4R, and the Marginal Rate Tables within, to determine your withholding percentage.

Do not take federal withholding. I understand that I am responsible for payment of any federal or state taxes on my distribution(s).

Please take federal withholding at a rate of _____% from my distribution(s).

8. State tax withholding election

If your state requires withholding or if the amount you enter below is less than the minimum for your state, Praxis will withhold at least the minimum state tax.
