

Church information management systems

Help to manage money and communicate

Does your church find it challenging to manage all the information about your attenders, programs and finances? It can be stressful when you don't have a system to help organize your accounting, information and communication.

One option to consider is church management software.

"Church management software enables churches and religious organizations to automate common administrative, management and reporting tasks. These feature-rich programs aim to expedite communications, streamline daily operations and support collaboration."

- Craig Borowski, Market Research Associate, Software Advice

Common features

- Membership management
- Contributions and donor management
- Accounting
- Event and facilities management
- Volunteer management
- Communications and outreach
- Check-in and child security

Pricing models

- Subscription based on weekly attendance (monthly or annual fee)
- Subscription based on number of member records (monthly or annual fee)
- Perpetual license fee (a one-time per-user or per-computer fee)

This overview provides you a brief overview of church management software and identifies a few of the hundreds of options available to churches.

Everence® does not endorse any specific software but provides this information to give you a starting point to explore options for your church.

Everence®

Intuit Quickbooks offers online accounting software for non-profits. It allows you to track donors and programs, maintain budgets and create financial reports for your board and taxes. This program is commonly used in small businesses and for personal finance, so volunteers may be familiar with it.

PowerChurch is an all-in-one software solution that helps keep track of Membership, Contributions, Accounting, Events Calendar and more! Since 1984, PowerChurch Software has been serving churches and nonprofits by providing affordable and easy to use software that helps streamline day-to-day tasks.

Tithe.ly is a cloud-based funds collection application designed for churches of all sizes. It offers a mobile app that allows church members to donate funds in a variety of ways and provides reports, alerts and donation tracking.

Servant Keeper by Servant PC Resources is a hybrid church management solution that caters to churches and faith-based organizations and helps them to manage their business operations. It enables churches to search through their attenders to pinpoint specific skills they have, track attendance or communicate via email with their constituents.

Church Community Builder is a cloud-based church management solution that helps church leaders engage with their attenders. Enables users to create organized systems and processes that can be accessed remotely.

Breeze is a web-based church management solution catering to the needs of small and midsize churches across the United States. Breeze provides an interactive interface to access member details, communicate with members, track donations and giving, manage volunteers, build reports and more.
