²The S&P 500 Value Index represents the value companies (defined by book value to price ratio, earnings to price ratio, and sales to price ratio) of the S&P 500 Index, a universe of large capitalization companies in the U.S. equity market. Indexes are unmanaged, do not incur fees, and it is not possible to invest directly in an index.

Praxis Mutual Funds are advised by Everence Capital Management and distributed through FINRA member Foreside Financial Services, LLC. Investment products offered are not FDIC insured, may lose value and have no bank guarantee.

INVESTING TOGETHER, IMPACTING THE WORLD
Fund information

Objective
To seek capital appreciation through a portfolio of stocks intended to parallel the investment performance of the U.S. large-cap, value-style equities market, while incorporating socially responsible investing criteria.

Strategy
The Fund:
• Features a value-oriented investment style.
• Invests primarily in equity securities and uses “indexing” techniques to approximate the performance of the S&P 500 Value Index, while incorporating socially responsible investing criteria.
• Attempts to minimize risk through diversification.

Risks
Equity securities (stocks) are more volatile and carry more risk than other forms of investments, including investments in high-grade fixed income securities. The net asset value per share of this fund will fluctuate as the value of the securities in the portfolio changes. Common stocks, and funds investing in common stocks, generally provide greater return potential when compared with other types of investments. Value-based investments are subject to the risk that the broad market may not recognize their intrinsic value.

Account minimums:
• I Shares – $100,000 for individual funds
• A Shares – $2,500 for individual funds
• Auto investing – $100 per month
