**Portfolio profile**

Price/earnings ratio forward	23.8x
Beta	1.00
Turnover ratio	26.4%

Price/earnings ratio (P/E) is the price of a stock divided by its earnings per share. It gives investors an idea of how much they are paying for a company's earning power. The higher the P/E, the more investors are paying, and therefore, the more earnings growth they are expecting.

Beta rating attempts to measure relative risk. A beta rating of higher than one indicates greater relative volatility than the market. A beta rating lower than one indicates lower volatility than the market, as defined by the S&P 500.

Turnover ratio is the percentage of a fund's holdings that have been replaced in the last year.

<sup>1</sup>The S&P 500 Growth Index represents the growth companies (defined by sales growth, earnings change to price and momentum) of the S&P 500 Index, a universe of large capitalization companies in the U.S. equity market. Indexes are unmanaged, do not incur fees, and it is not possible to invest directly in an index.

<sup>2</sup>Reflects the expense ratio as reported in the Prospectus dated April 30, 2018.

<sup>3</sup>A \$25 annual fee applies to accounts under \$5,000.

## Portfolio manager

### Dale Snyder, CFA®

Dale Snyder has been a portfolio manager of the Praxis Value Index Fund and the Praxis Growth Index Fund since June 2013, the Praxis Small Cap Index Fund since Jan. 2017, and became co-portfolio manager of the Praxis Genesis Portfolios in May 2018. He joined Everence in 1999 as an equity analyst. Dale has served as a research analyst for the Praxis Impact Bond Fund and assistant portfolio manager for both fixed income and equity separately managed portfolios. He holds a bachelor of arts in business (minor in economics) from Goshen College and an M.B.A. from Indiana University. Dale is a CFA® charterholder.

## Fund information

### Objective

To seek capital appreciation through a portfolio of stocks intended to parallel the investment performance of the U.S. large-cap, growth-style equities market, while incorporating stewardship investing criteria.

### Strategy

The Fund:

- Features a growth-oriented investment style.
- Invests primarily in equity securities and uses “indexing” techniques to approximate the performance of the S&P 500 Growth Index, while incorporating socially responsible investing criteria.
- Attempts to minimize risk through diversification.

### Risks

Equity securities (stocks) are more volatile and carry more risk than other forms of investments, including investments in high-grade fixed income securities. The net asset value per share of this fund will fluctuate as the value of the securities in the portfolio changes. Common stocks, and funds investing in common stocks, generally provide greater return potential when compared with other types of investments. Growth-based investments are subject to the risk that the broad market may overstate their intrinsic value.

### About Praxis Mutual Funds

A leader in integrating values and cutting-edge impact investing strategies, Praxis Mutual Funds offers five mutual funds and three fund of funds. Through values-based screening, integrated environmental, social and governance factors, positive-impact bonds, corporate engagement, proxy voting and community development investments, Praxis investment options make a difference. Invest in impact, invest in what matters.
