¹Bloomberg Barclays U.S. Aggregate Index is an index of widely held fixed-income securities often used as a proxy for the bond market. It is comprised of the U.S. Treasury and U.S. agency bonds, mortgage-backed bonds, and higher-grade corporate bonds. Indexes are unmanaged, do not incur fees, and it is not possible to invest directly in an index.

²Reflects the expense ratio as reported in the prospectus dated April 30, 2019.

³The Advisor has entered into a contractual expense limitation agreement until April 30, 2020.

*Load: Impact Bond Fund assumes maximum sales charge of 3.75%.

Past performance does not guarantee future results. The performance data quoted represents past performance and current returns may be lower or higher. The investment return and principal will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. To obtain performance information current to the most recent month end, please visit praxismutualfunds.com.

Consider the fund's investment objectives, risks, charges and expenses carefully before you invest. The fund's prospectus and summary prospectus contain this and other information. Call 800-977-2947 or visit praxismutualfunds.com for a prospectus, which you should read carefully before you invest. Praxis Mutual Funds are advised by Everence Capital Management and distributed through Foreside Financial Services, LLC, member FINRA. Investment products offered are not FDIC insured, may lose value and have no bank guarantee.

Foreign investments involve greater risks than U.S. investments, including political and economic risks and the risk of currency fluctuations. There are special risks associated with small capitalization issues, such as market illiquidity and greater market volatility than large capitalization issues.

Equity securities (stocks) are more volatile and carry more risk than other forms of investments, including investments in high-grade fixed income securities.

Investors in any bond fund should anticipate fluctuations in price, especially for longer-term issues and in environments of rising interest rates.

¹The MSCI ACWI (All Country World) ex US Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets, excluding the United States. The index consists of 44 country indices comprising 23 developed and 21 emerging market country indices. Indexes are unmanaged, do not incur fees and cannot be invested in directly.

²The S&P SmallCap 600 Index measures primarily the small-cap segment of the U.S. equity market.

³The Russell 2000 Index is an unmanaged index consisting of the 2,000 smallest of the 3,000 largest stocks. Returns are adjusted for the reinvestment of capital gains distributions and income dividends. You cannot invest directly in an index.

⁴Reflects the expense ratio as reported in the prospectus dated April 30, 2019.

⁵The Advisor has entered into a contractual expense limitation agreement until April 30, 2020.

⁶Each Class I share is available to any investor with a minimum initial investment of \$100,000. Waivers may be available in certain circumstances. Please contact Jerry Gray at 800-503-0905.

⁷A \$25 annual fee applies to accounts under \$5,000.

*Load: Assumes maximum sales charge of 5.25%.
